

How can we  
harness the power and  
wisdom of  
**togetherness**

to navigate the challenging  
times we live in?

Imagine cultivating a  
**tribal backbone**

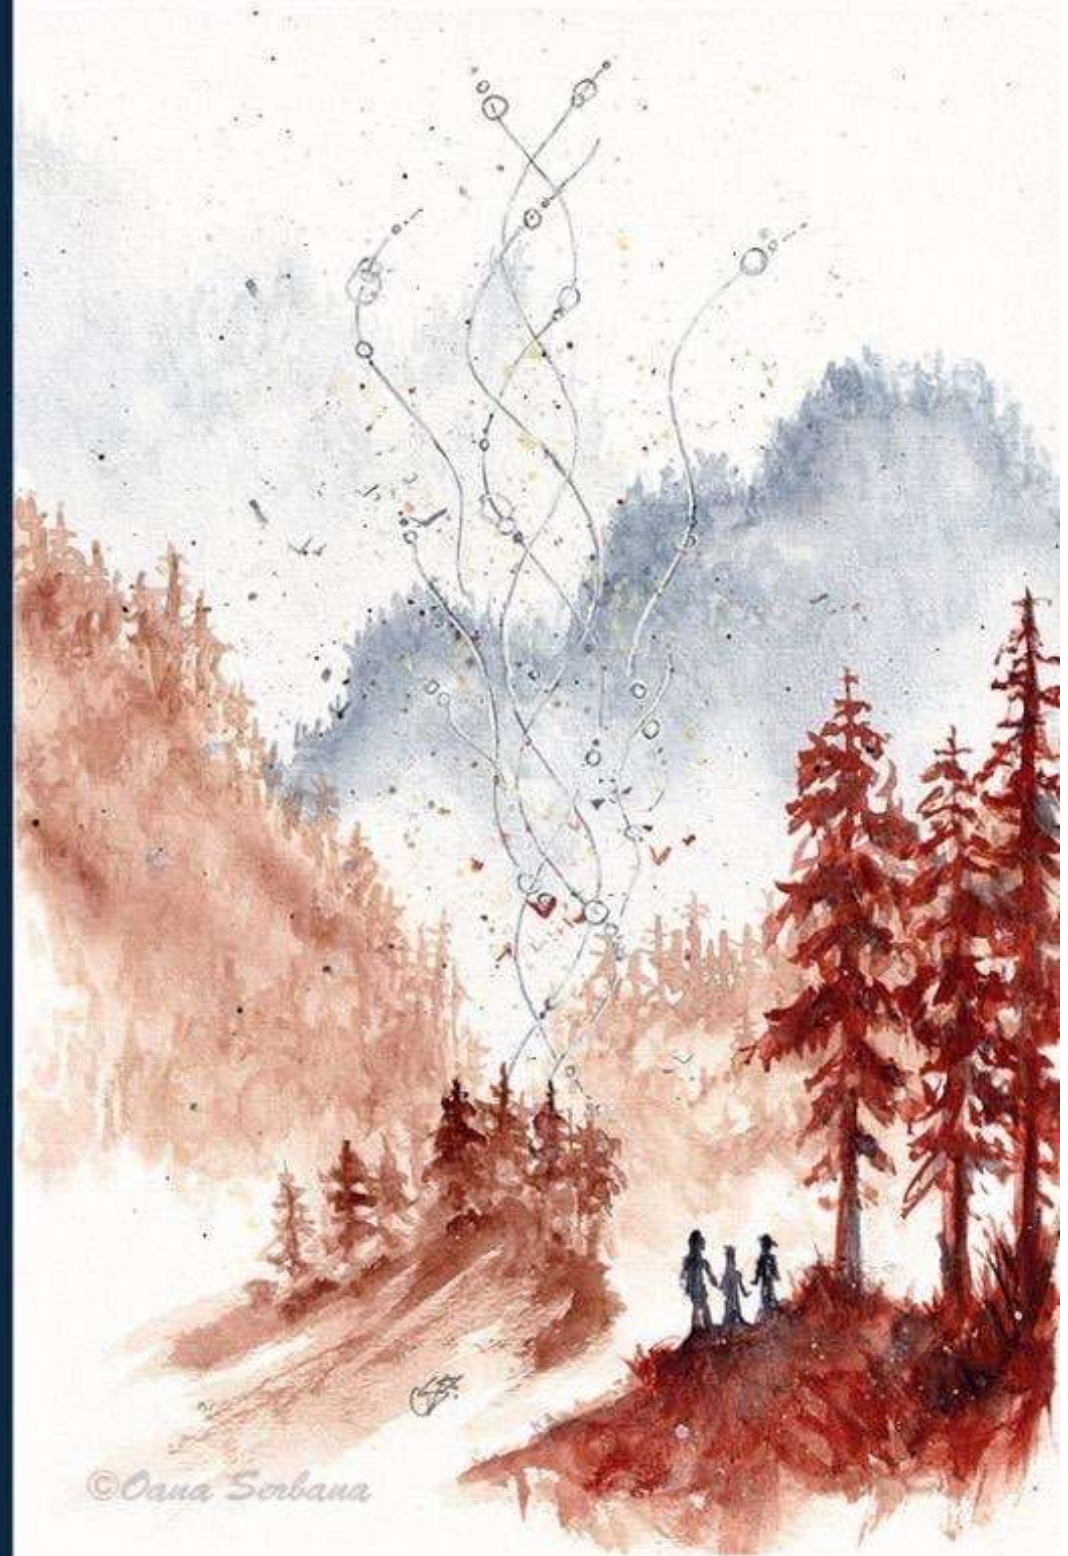

that allows us to meet  
reality together while  
staying connected to

**love, curiosity**  
and excitement for life.

This tribal immersion is for  
for people with  
experience in  
group-fields:

- soul-, heart- and life-  
leaders
- elders
- community pioneers
- facilitators
- courageous young  
innovators
- earth-keepers
- storytellers and artists
- anyone who deeply  
knows that the time to  
do it all alone is over!

We invite you to a  
magical  
community-run  
nature  
sanctuary  
in the pristine  
French alps  
supported by the  
Full Moon  
and  
Equinox  
energy from the  
17th - 22nd of  
September 2024.

Explore, remember, be real, celebrate, collapse, move, express,  
listen, connect, expand, play, share and co-create with nature...

Let's take the necessary steps to awaken our tribal heart and  
birth new ways of togetherness!

Is your fire as sparked as ours?

Come join us!
